OCCUPATIONAL SAFETY AND HEALTH CENTER

CITIZEN'S CHARTER

2021 (9th Edition)

I. Mandate:

The Occupational Safety and Health Center (OSHC) was established as the nationally recognized authority on occupational safety and health (OSH). It is mandated to conduct research, provide training, serve as the clearing house of information and innovative methods, and extend technical expertise to employers and workers in both public and private sectors on OSH matters. It partners with stakeholders for the attainment of safe and healthy working conditions through responsive and sustainable OSH policies and programs. It also targets effective delivery of quality services to its clients.

The OSHC aims to increase productivity through fostering a better working environment, lessen manpower and economic losses due to occupational accidents and diseases, and to improve the welfare of workers and their families

II. Vision:

A healthy and well-protected working population in a caring and responsive work environment brought about by sound OSH policies and laws, research, training, information exchange, technical expertise and extensive networking.

III. Mission:

To develop effective, responsive, and sustainable OSH programs, policies and services; promote excellent management of resources and foster mutually beneficial linkages that will create a healthy and safe work environment for workers in all industries.

IV. Service Pledge:

- Undertake continuing studies and researches on occupational safety and health.
- Plan, develop, and implement occupational safety and health training programs.
- Serve as clearing house for occupational safety and health information, methods, techniques, approaches, and institute an information dissemination mechanism.
- Monitor work environment and conduct medical examinations of workers.
- Serve as duly recognized agency for testing and setting standard specifications of personal protective equipment and other safety devices.
- Assist other government agencies in policy and standards formulation on occupational safety and health matters; and issue technical guidelines for prevention of occupational disease and accidents.

- Enlist the assistance of other government agencies and non-governmental institutions in achieving the objectives of the Occupational Safety and Health Center.
- Perform such other acts appropriate for attainment of the above functions and enforcement of the provisions of Executive Order No. 307.
